I George Starr of Caldwell Manor in the Province of Lower Canada aged 88 years do testify & say that in the [year] 1778 I was a private soldier in Captain Benja Hicks Company in Col. G. VanSchaick's Regiment and was wounded in the battle of Monmouth as stated in my declaration was immediately removed to the hospital in Morristown New Jersey and after a partial recovery from my wounds I received from Dc'r Sweet I think in November 1780 a pass to go to my regiment I went immediately to Col. VanSchaick who was then at Albany New York and was by him examined and found to be unable to perform military duty and as the Regiment was then gone to the south I obtained permission from my Colonel to go home to my friends in Poughkeepsie and stay until the Regiment returned or was called for. It was a long time after my return home before I was wholly recovered from my wounds and in the mean time the Reg't returned (I think) to New Windsor N.Y. and was there discharged before I had knowledge of its return. Those are the reasons why I did not receive a formal written discharge respecting my making application for a pension under the act of 1818. In the year 1818 or 1819 I applied to Judge Witmore of St. Albans for to assist me in procuring a pension he informed me that persons residing in Canada at the time of the passing of the act was not entitl4ed. But at that time having no family and not having any permanent residence only among my friends both in the States and in Canada I thought it would be different from those who had a settled residence in the province. Therefore concluded that if I could prove my service I might obtain a pension. In the fall of 1827 I took a journey of about two hundred miles in order to obtain the evidence required and obtained one witness only being poor & unable to procure means to make further inquiry I returned home after my return I presented the evidence to Judge Witmore [?] who informed me that the evidence which I had obtained (viz. Jonathan Parr) would not be sufficient alone but that I had better make my declaration and make a further trial to procure more evidence and accordingly he took down the particulars of my services in the Army of The Revolution as I related them but not being able to defray the expense of a journey to New York I gave up the matter and I conclude that my declaration was never sent at any rate I have done nothing about a pension since that time which I would say was in 1829 or 30 until the passing of the act of 1832 and further say not.
